Wednesday

Dear Booby,

What's going on up there?

I didn't get a letter last week and I was afraid someone was sick. You are all busy I know and it's O.K. No news is good news.

The weather is just beautiful here. I think the weather man is trying to make up for some of the cold, rainy weather we have been having. I have been out every day this week and I believe I feel better when I get out some. Monday I went to Dr. Fowler. Didn't really need to but I had made the appointment last month. They are so nice to you that it makes you want

to go back.

Garland went to Florence S.C. Sunday night. They took him just as soon as he called in. He went alone and got back Monday about one. Then he went out Monday night about ten thirty to Toledo, Ohio and just got in today at two. He had another driver with him. They had to lay over a few hours and he slept in so he is out and gone now. He came in by where Clarence's crew is working and someone had been out there and got Clarence off the job. His mother was worse or having a spell of some kind. I wait know till he gets back. Those boys have really had it with their mother and father. Jimmy, Richard and another sent me a beautiful bouquet of yellow mums Monday. They were all dressed up with

ribbons in a case. ^{3.} Don't know what
brought that on.

I called Frank Tuesday to ask them to
go to supper. They didn't answer so I
went alone to Huey's. Guess I shouldn't
have but I didn't eat any salt except
what little was in two rolls.

Hattie came Tuesday and cleaned and
pressed pants. Garland wasn't here Monday
night long enough to wash, he won't let
me, so she didn't have any ironing. She
will have plenty next week. He thinks
he will rinse out a few pieces tonight.
I'm not doing a thing but I feel better
since it stopped raining so I'm going
to try and get a few things done next
week. One is to get a permament. My
hair looks awful.

Hope you all have a good time for
Peter's birthday celebration. I mailed

-4-

a card Saturday and a little package
Monday. Guess he will get there O.K.
The new pastor is coming in to Sharon
this week and preach for the first
time Sunday. They are having a covered
dish lunch after the service. I guess
it's lunch. Could be supper.

The trees are blooming here. Our pear tree
is almost white. I'm afraid the frost
will all be killed. We will surely
have some more cold weather.

I'll stop for now and go out and
walk over the yard. Jimmy, next door,
has been raking, cutting and burning
on his all week. It makes mine look
bad.

Take care and write when you can.

Love to all

Mother
