Tuesday Afternoon

Dear Booty;

you probably haven't gotten my letter from last week but I wanted to write a note and say that I am much better. In fact good as new except for weakness. I went to Dr. Fowler, a chiropractor, Friday, Saturday and Monday. He dismissed me Monday and I have had very little pain since I went the first time. Of course I am weak because I had suffered so much and so long. Just hope it doesn't come back. If it does I'm going right back to him. It's the only place I can get any relief. I think it is the same old spasms of the muscles that I have had for years.

George and Minnie came by this afternoon. They had been to the mall to their pioneers meeting. They looked quite chipper and I was glad to see that they can get out and go.

Page and Vannah came Monday afternoon. We had just got home from the doctor. They look real old and crochety but they keep going. He said he had been stopped twice lately by highway patrolmen. One followed him home in the yard and talked to him. I'm afraid they will both be killed if he keeps driving in his condition.

Garland and Carl drove to the coast Sunday. They left here about nine o'clock and got back at seven that night. Don't know what the occasion was. They just wanted to go I guess. He said there was snow on the beach.

-3-

Frank and Hazel came Sunday and brought my dinner, a casserole of stew beef and a pan of macaroni and cheese. It was still warm when I ate lunch off it. The sun is out today and it is real warm compared to what we have been having. I carried Hattie home this morning. The first time I have had my car out since the snow. I wanted to get my hair fixed this afternoon but Jane was going to gymnasium at one o'clock and Melba was out sick so I will go Wednesday.

Garland went to High Point with Clarence this morning and hasn't come back yet. He will mail this for me.

Guess you are all back in school. Love
Hear from you.

Love to all

Mother
